

CYCLING COLLISION HOT SPOTS IN OXFORD

Number of collisions involving cyclists in Oxford in the past 5 years as documented on www.crashmap.co.uk based on data from the Department of Transport.

INCIDENT SEVERITY SLIGHT SERIOUS The colour of the roads marks the density and severity of collisions

HIGHWAY CODE – HIERARCHY OF USERS

H1 Everyone suffers when road collisions occur, whether they are physically injured or not. But those in charge of vehicles that can cause the greatest harm in the event of a collision bear the greatest responsibility to take care and reduce the danger they pose to others. The larger your vehicle, the more careful you must be.

None of this detracts from the responsibility of **ALL ROAD USERS**, including pedestrians, cyclists and horse riders, to have regard for their own and other road users' safety.

H2 All road users **MUST** wait for the pedestrian to cross the junction before turning. This applies if you are turning right or left into the junction.

H3 Drivers and motorcyclists **MUST** wait for the cyclist to pass the junction before turning. This also applies if there is a cycle lane or cycle track and if you are turning right or left into the junction.
